THE EMS INDUSTRY.

MEXC ICO

mexc.life

MEXC. ICO backed by product.

MEXC (pronounced as “Maxi”) is based on a real business model where MEXC Utility Tokens were backed by a wide range of high technology MEXC’s product, services, manufacturing and distributions.

These products are the results of our 20 years of Research and Development thoroughly tested in Emergency Medical Services (EMS) facilities and hospitals.

mexc.life

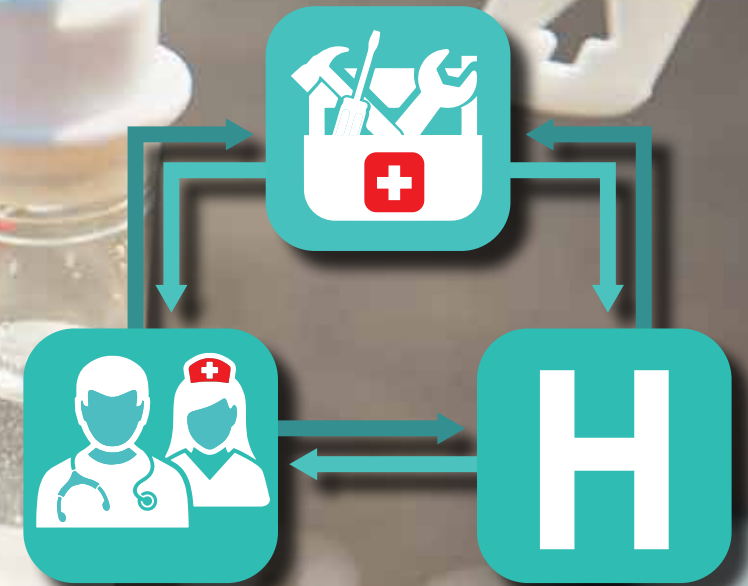

Ready made product. Ready markets.

All MEXC's product equipment and services were currently exist in the market and extensively used by Traumatology's, which covers:

Emergency Response Team

Medical Professionals

MEXC products were currently used in all semi-critical and critical emergency situations that require fast and professional treatment from pre-hospital care to medical facilities.

mexc.life

Life-saving. Necessity.

Sets of life-saving product that offer innovative solutions to many emergency cases that require fast and intensive care treatment.

Since the products were well associated as compulsory equipment in all ambulances and emergency rooms, we therefor found that the equipment are now becoming a necessity to the traumatology unit across the world.

mexc.life

Huge market. Endless demand.

MEXC is set to democratize the USD 6.8 billion dollars Emergency and Medical Services (EMS) industry globally by offering MEXC Token sale for the public to participate in this industry.

mexc.life

World's First

There are many world's first innovative inventions with MEXC.

MEXC Token as de-facto standards in Emergency Medical Services (EMS) industry.

MEXC Token as the industry standards for medical products and services.

Decentralized exchange where MEXC can be converted to fiat

Decentralized Enterprise Resource Planning (ERP) platform through Ethereum Smart Contracts (from manufacturing to delivery)

Decentralized voting for MEXC business related activities.

MEXCONOMY,
DEMOCRATIZING
THE EMS INDUSTRY.

MEXC PRODUCTS

mexc.life

The EMS Industry

EMS Industry can be categorized into main 7 (seven) categories:

Infection
Control

Cardiac And
Respiratory

Transportation
Equipment

Diagnostics

Trauma And
Burn Care

Blood And
Haemorrhage
Control

Hypothermia
Prevention

mexc.life

Core Areas

Our products are based on new inventions, new innovations and creativities in providing the best, and cost effective products and solutions for the EMS industry.

The main criteria for our products are based on these philosophies:

**Life saving
interventions.**

**Complication
treatment
interventions.**

**Functional
saving
interventions.**

mexc.life

The EMS Industry

Over The Years Since 1998, Mexc Have Extensive Numbers Of Ems Potential Products Which Covers All The 7 Categories In Main EMS Industries with:

25
new patentable
inventions

6
copyrights

5
industrial
designs

mexc.life

MEXCONOMY,
DEMOCRATIZING
THE EMS INDUSTRY.

MEXC TOKENS

mexc.life

The Tokens

MEXC
Token

PUBLIC TOKEN

MEXC Token is set to be a de-facto standard token and created solely for the use in Emergency and Medical Services (EMS), the first in the industry.

Token sold to public to take part in the EMS industry.

Mx
Token

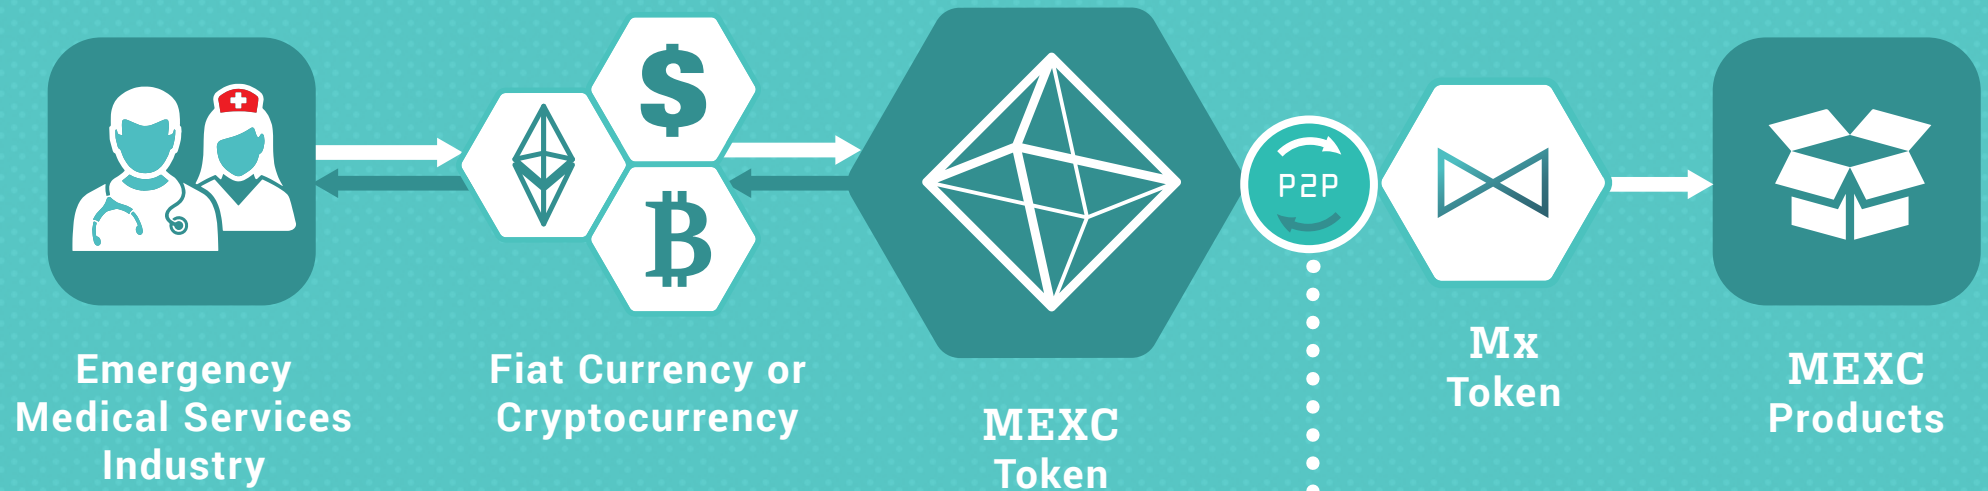

INTERNAL TOKEN

Mx Token which is an internal token that is pegged to USD dollar. All our products and related services are priced in Mx.

The EMS industry players have to purchase our patent-pending EMS products and services only by using Mx Token, an internal token to be use in medical industry.

mexc.life

How Does The Token Work?

**All transactions are done via Ethereum Smart Contract.*

mexc.life

MEXC Token Model

**Human
Centered**

**Grows in
value**

**Backed by products
and innovations**

**Endless demands
and transactions**

**Independent from
other blockchain**

mexc.life

MEXC Main Mission

The main mission of MEXC Program is to make affordable EMS products and services by giving crypto holders a chance to be part of this huge market. Thus the program is created mainly to reduce the price points for EMS products and services by:

1

Continuing our R&D, trials and acceptance for affordable EMS products and services.

2

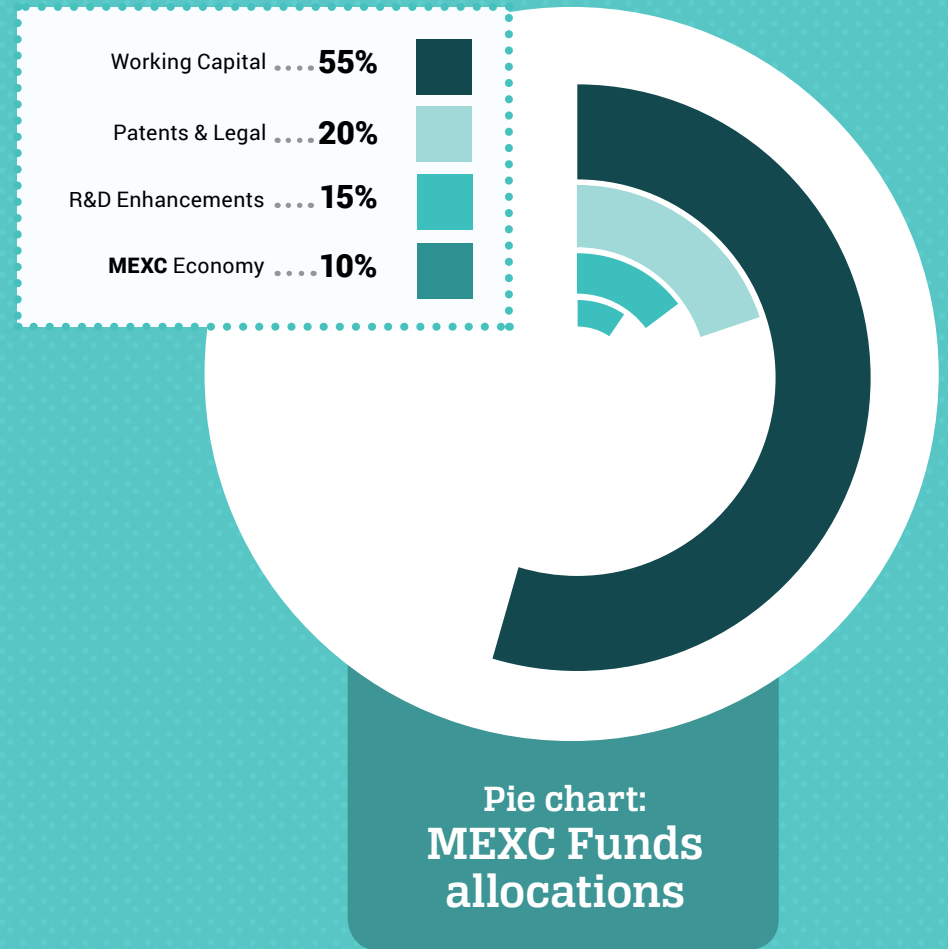

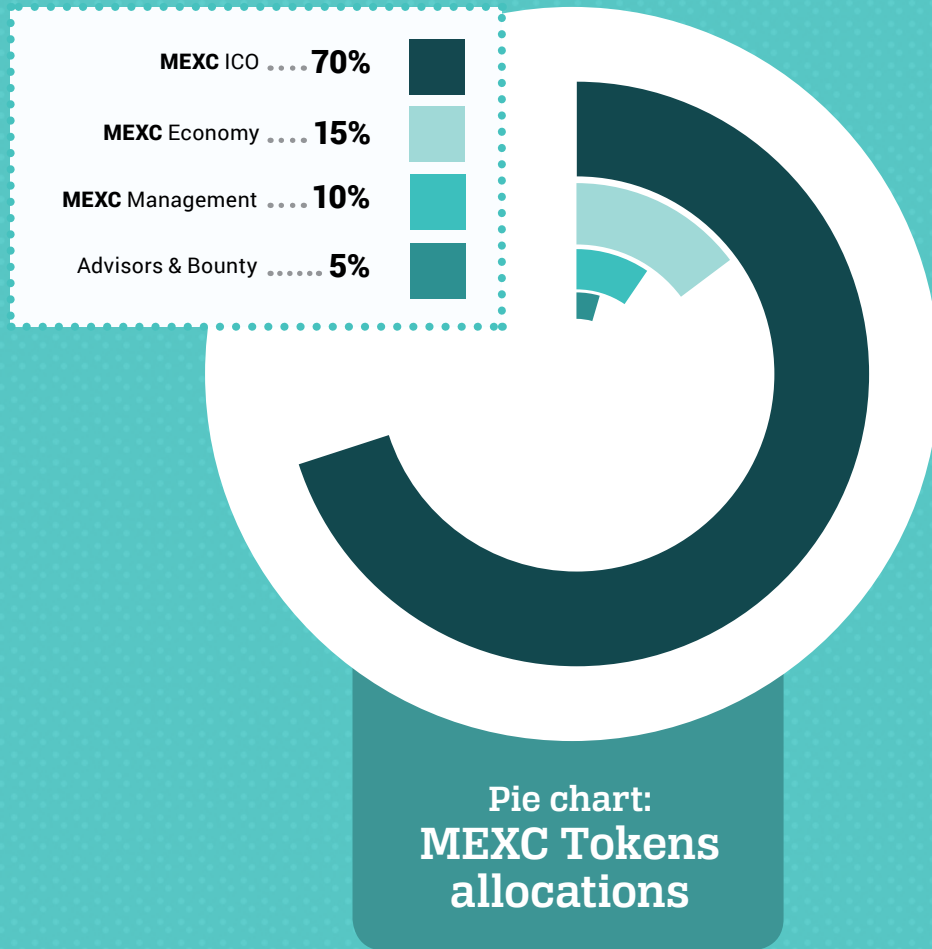

Delivering the EMS products and services at cheaper price points through decentralization of deliverables and activities.

3

Protecting the results through patents, copyrights of our new and existing EMS products and services.

mexc.life

MEXC Allocations

MEXCONOMY,

THE EMS INDUSTRY.

MEXC ECONOMY & ECOSYSTEMS

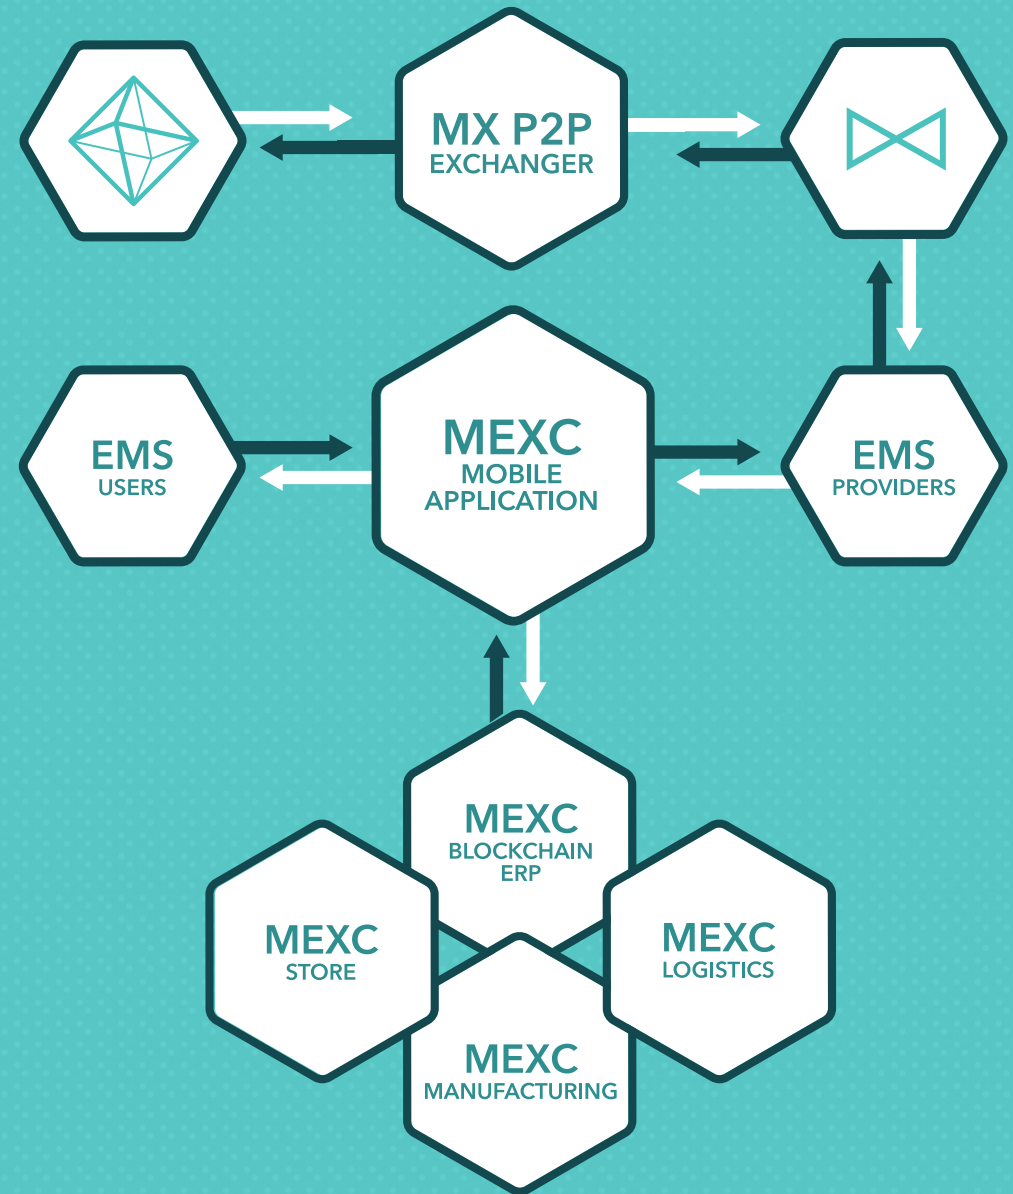

mexc.life

MEXConomy™

The MEXConomy is a full loop eco-system that connects the buyers of MEXC Tokens during ICO, as well as post-ICO at participating exchangers, to the industry players in the EMS industry to purchase our patent-pending EMS products and services using Mx Tokens.

ERP Platform

A blockchain-based Enterprise Resource Planning (ERP) platform is another novelty system whereby all processes, from sales, to manufacturing, and to delivery of the products are mapped, tracked and monitored to ensure transparent processes, non repudiation, as well as secure traceability on the Ethereum Network through the use of Ethereum Smart Contracts.

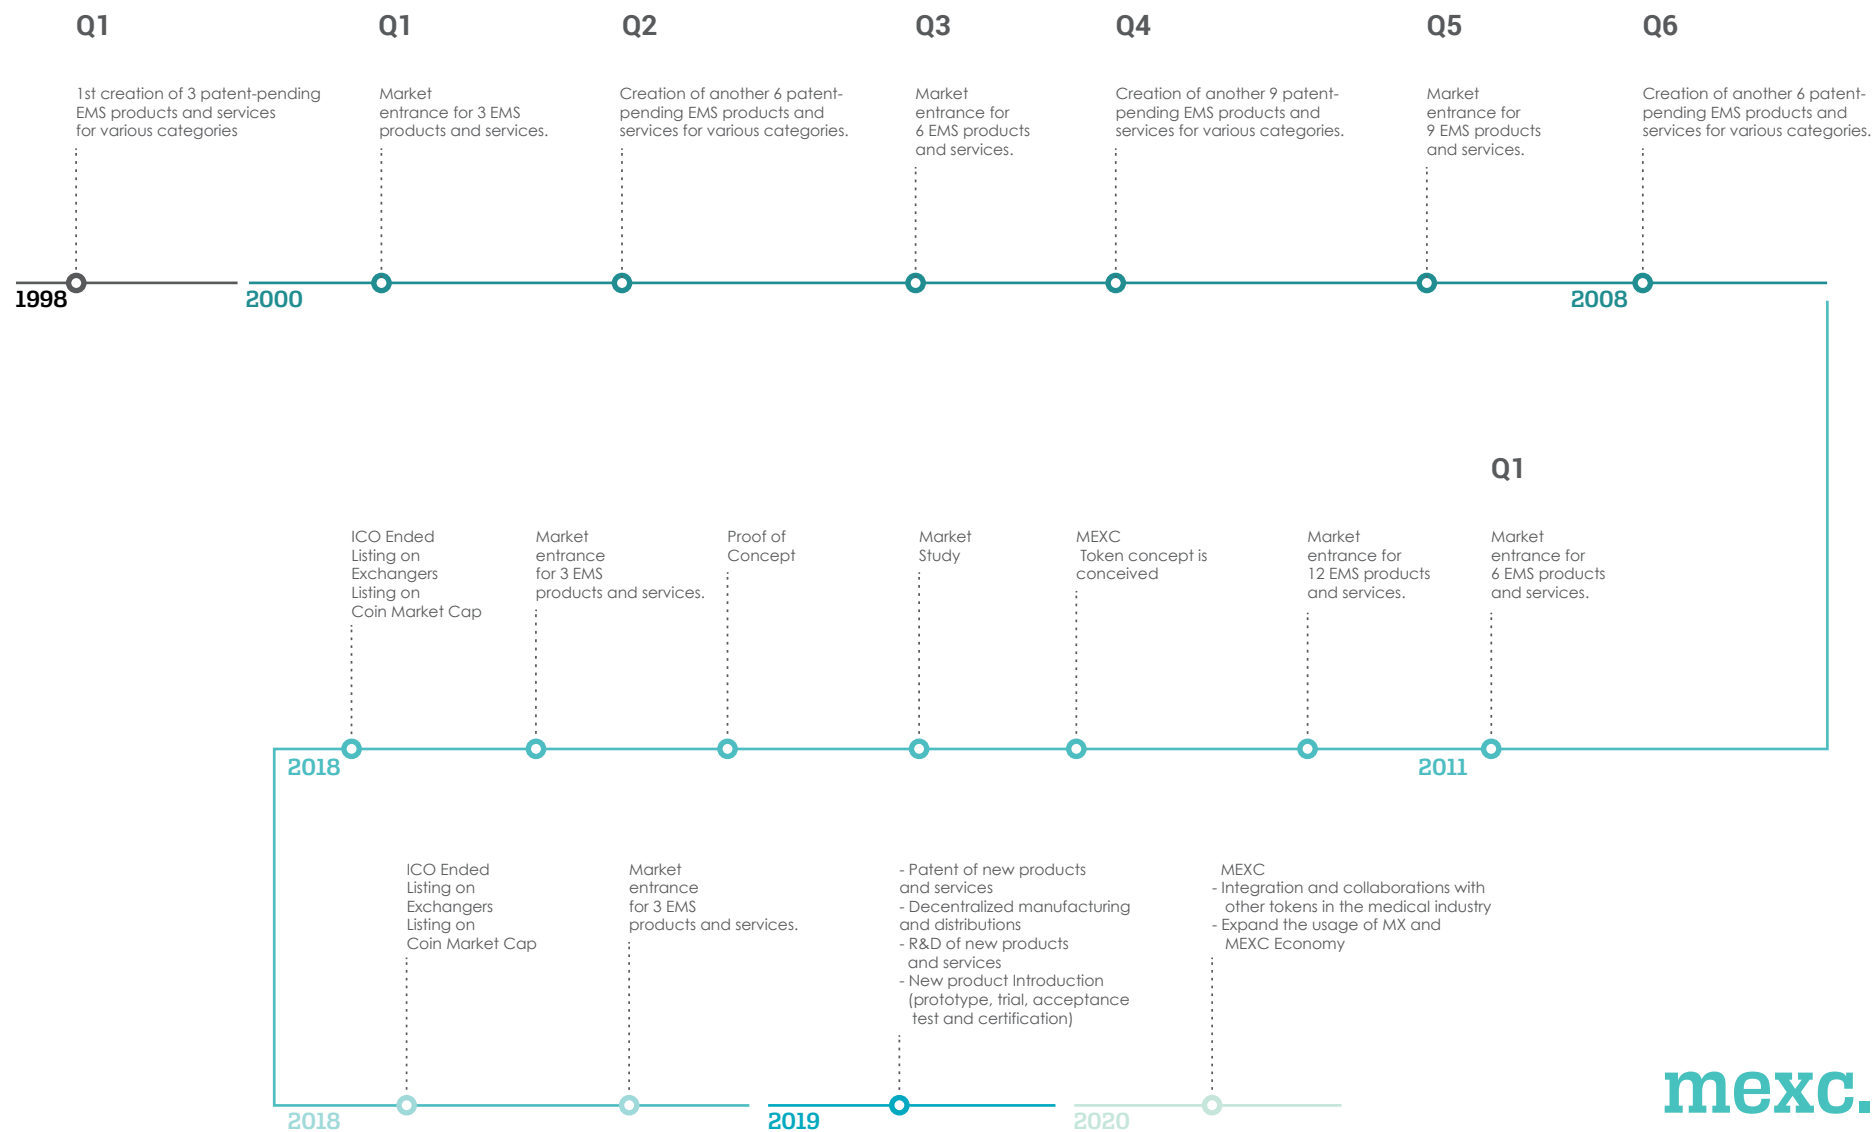

mexc.life

Decentralized Voting

With MEXC, every token holder are allowed to participate in the democracy of Decentralized Voting System which give token holders the power to make decisions with regards to the MEXC business activities and future focus investments.

DEMOCRATIZING
THE EMS INDUSTRY.

BUY MEXC

mexc.life

DURING THE ICO

HOW TO GET MEXC TOKENS DURING THE ICO

Step 1: A step by step guide

1. Get Bitcoin or Ethereum.

- (A) From P2P exchanger - such as Remitano
- (B) From trusted crypto sellers that you personally know.

Move your Bitcoin or Ethereum to a wallet you control.

- (A) For Ethereum, we recommend MyEtherWallet (MEW) or imToken.
- (B) For Bitcoin, any good trusted wallet like Blockchain.info is acceptable.

2. Participate in the ICO by sending your crypto to our address.

(A) ETH - Our Official Crowdsale Address.

0xefab21b4de8b0a8c167e9afa8183e0e14cef400f

(B) BTC - Our Official Bitcoin address for MEXC Crowdsale:

3BCwFWshhau8pMA86NncET8X9sUwNS1S8P

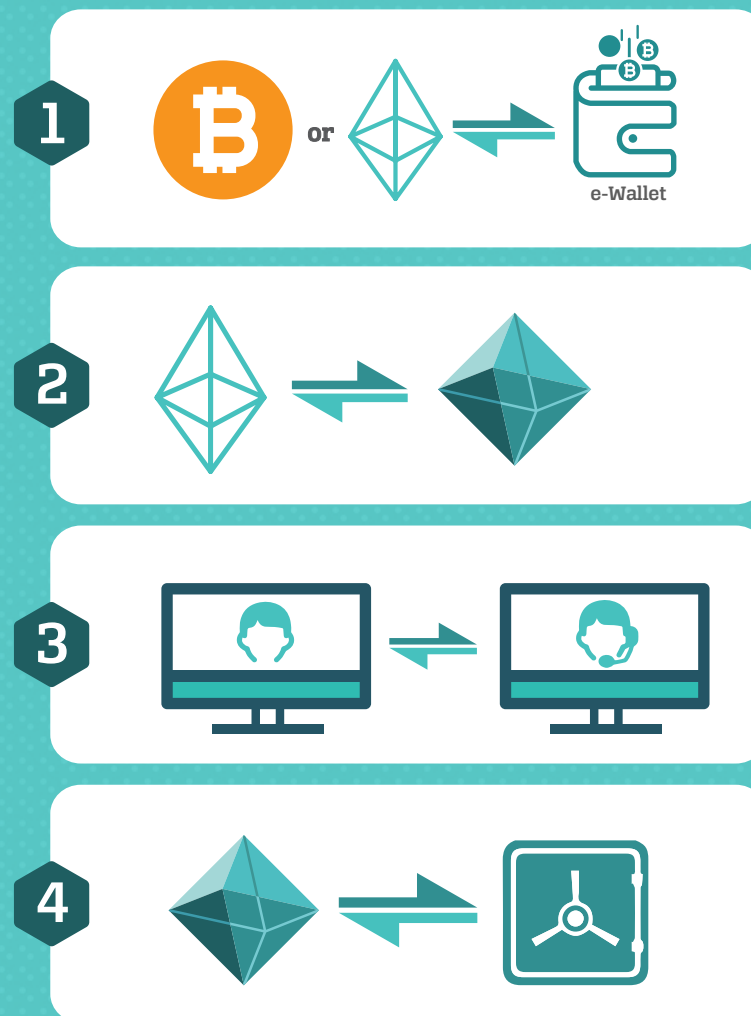

*** Contributions are open at Feb 8th.*

Make sure to set the gas Price 80 gwei and 200,000 gas limit just to be safe.

3. Contact our support team to whitelist your address before sending to our smart contract. Otherwise, it would fail.

4. Once you have your tokens, figure out how to store them.

- The two most popular hardware wallets are Trezor and Ledger.

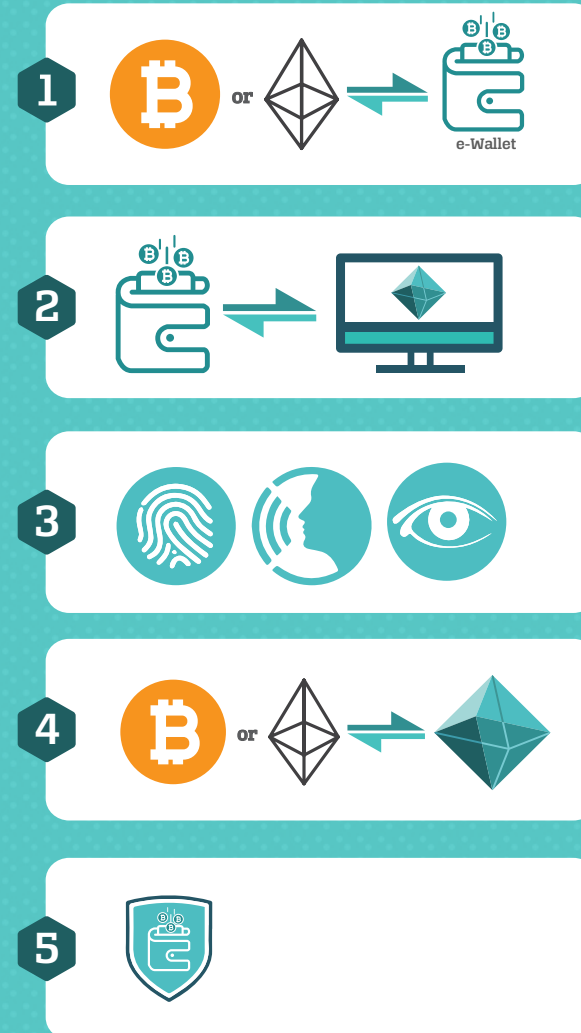

mexc.life

AFTER THE ICO

HOW TO GET MEXC TOKENS AFTER THE ICO

1. **Get Bitcoin or Ethereum.**
 - Same as step 1 outlined above.
2. **Transfer it to an exchange that has the MEXC you want to buy.**
 - Find exchangers that have listed MEXC.
3. **Set up two-factor authentication on your account, but not with your phone number.**
4. **Exchange your BTC or ETH for MEXC.**
5. **Store them securely on a hardware wallet**

mexc.life

BITCOIN QR Code

3BCwFWshhau8pMA86NncET8X9sUwNS1S8P

ETHEREUM QR Code

0xefab21b4de8b0a8c167e9afa8183e0e14cef400f

* NOTE:

MEXC Is Not Transferable Until It Is Listed On The Exchanger.

This Means That You Can Only Transfer It After We Enable It. You Can See Your Mexc In Your Wallet But You Cant Move It Out.

MESSAGES

mexc.life

"..these inventions and innovations basically transforms the EMS industry, making it more efficient for all paramedics, ambulances and hospitals"

"..First and foremost, I still feel that the cost for EMS is still too expensive making it less affordable to the masses globally but what makes it even worse is that the current equipment available in the global market are still inefficient and many are out dated developed by various EMS and Medical Equipment companies."

"..The whole philosophies centered around the idea of bringing the complex Orthopaedic functions and facilities in the hospitals into the accident and emergency scenes with the emphasis on mobility and space constraints of the site and ambulance themselves.

With these philosophies, we have created new products and services that can be used outside of the hospitals for emergency services. If we can intervene the process from bringing the patients from the accident and emergency scenes to the hospital with the proper orthopaedic care, more lives can be saved."

PROF. DATO' SRI DR. ABU HASSAN ASAARI BIN ABDULLAH.

SSAP, DIMP, KSD, AMN, PJB, PSB (St.John), PBP (JPAM) MBBS, FRCS (Edin), FAMM (Mal), FAMS (Singapore)
Chairman, Inventor & Product Owner, MEXC Program.

mexc.life

"..not at the stage of concept ideas or vaporware, not at the stage of R&D or prototype. A product that's already been used in some part of the world and now ready to become the de facto standards for the world"

"..product manufacturing shall be tracked upon the ordering on the Ethereum blockchain making the business operations, manufacturing and delivery involved utilizing the blockchain technology"

"..decentralization of the manufacturing shall also reduce the production cost by bringing the manufacturing closer to the customers."

ABD RAZAK ABD MULOK

Chief Executive Officer, MEXC Program.

"MEXC Economy is a full loop eco-system that connects the buyers of MEXC Tokens during ICO, as well as post-ICO at participating exchangers, to the industry players in the EMS industry to purchase our patent-pending EMS products and services using Mx Tokens."

"A blockchain-based Enterprise Resource Planning (ERP) platform is another novelty system.."

HISHAM ISMAIL

Chief Technology Officer, MEXC Program.
